Resident Foreigners Donatella Di Cesare 2020-04-13 From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather

as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation - and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of philosophy and political theory.

Poems We Love Leigh Mitchell Hodges 2017-09-12 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the

collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Trusting and its Tribulations Vigdis Broch-Due 2016-04-01 Despite its immense significance and ubiquity in our everyday lives, the complex workings of trust are poorly understood and theorized. This volume explores trust and mistrust amidst locally situated scenes of sociality and intimacy. Because intimacy has often been taken for granted as the foundation of trust relations, the ethnographies presented here challenge us to think about dangerous intimacies, marked by mistrust, as well as forms of trust that cohere through non-intimate forms of sociality.

Migrancy, Culture, Identity Iain Chambers 2008-02-20 In *Migrancy, Culture, Identity*, Iain Chambers unravels how our sense of place and identity is realised as we move through myriad languages, worlds and histories. The author

explores the uncharted impact of cultural diversity on today's world, from the 'realistic' eye of the painter to the 'scientific' approach of the cultural anthropologist or the critical distance of the historian; from the computer screen to the Walkman and 'World Music'. *Migrancy, Culture and Identity* takes us on a journey into the disturbance and dislocation of culture and identity that faces all of us to explore how migration, marginality and homelessness have disrupted the West's faith in linear progress and rational thinking, undermining our knowledge, history and cultural identity.

The Dative William van Belle 1996 Since antiquity, scholars have been fascinated by the phenomena of case. The explanation for this fascination is, as Hjelmslev already pointed out over fifty years ago, the fact that he who can unravel the meaning of case-relations, has the key to language structure as a whole. For over three years, a team of twenty scholars affiliated with the Linguistics Department of Leuven University in Belgium has concentrated on case phenomena in different languages, both Indo- and non-Indo-European. It is the first time that such a large scale investigation into case has been undertaken. Noteworthy is also its reliance on computer-stored corpora of authentic material. The results are published as a series ("Case and Grammatical Relations across Languages") of which the first volume, a bibliography, appeared in 1994. The first volume on the dative case contains 13 articles, each of which gives a detailed syntactic-semantic description of the dative or its counterparts in a particular language. In addition to the lexico-syntactic frames in which they occur, a number of textual and extra-linguistic factors are taken into account. Languages investigated are English (K. Davidse), German (L. Draye), Dutch (W. Van Belle & W. Van Langendonck), Afrikaans (L.G. de Stadler), Latin (W. Van Hoeske), French (L. Melis), Spanish (N. Delbecque & B. Lamiroy), Portuguese (R. de Andrade), Polish (B. Rudzka-Ostyn), Hungarian (G. Toth), Pashto (W. Skalmowski), Hebrew (P. Swiggers) and Orizaba Nahuatl (D. Tuggy).

Aesthetics of the Virtual Roberto Diodato 2012-11-15 Arguing that the virtual body is something new—namely, an entity that from an ontological perspective has only recently entered the world—Roberto Diodato considers the implications of this kind of body for aesthetics. Virtual bodies insert themselves into the space opened up by the famous distinction in Aristotle's *Physics* between natural and artificial beings—they are both. They are beings that are

simultaneously events; they are images that are at once internal and external; they are ontological hybrids that exist only in the interaction between logical-computational text and human bodies endowed with technological prostheses. Pursuing this line of thought, Diodato reconfigures classic aesthetic concepts such as mimesis, representation, the relation between illusion and reality, the nature of images and imagination, and the theory of sensory knowledge.

Mediating Languages and Cultures Dieter Buttjes 1991 The history of "language teaching" is shot through with methods and approaches to language learning - most recently with "communicative language teaching" - but this book demonstrates that a more differentiated and richer understanding of learning a foreign language is both necessary and desirable. Languages and cultures are interlinked and interdependent and their teaching and learning should be too. Learning another language is part of a complex process of learning and understanding other people's ways of life, ways of thinking and socio-economic experience

Understanding Reading Frank Smith 2004-05-20 Understanding Reading revolutionized reading research and theory when the first edition appeared in 1971 and continues to be a leader in the field. In the sixth edition of this classic text, Smith's purpose remains the same: to shed light on fundamental aspects of the complex human act of reading--linguistic, physiological, psychological, and social--and on what is involved in learning to read. The text critically examines current theories, instructional practices, and controversies, covering a wide range of disciplines but always remaining accessible to students and classroom teachers. Careful attention is given to the ideological clash that continues between whole language and direct instruction and currently permeates every aspect of theory and research into reading and reading instruction. To aid readers in making up their own minds, each chapter concludes with a brief statement of "Issues." Understanding Reading: A Psycholinguistic Analysis of Reading and Learning to Read, Sixth Edition is designed to serve as a handbook for language arts

teachers, a college text for basic courses on the psychology of reading, a guide to relevant research on reading, and an introduction to reading as an aspect of thinking and learning. It is matchless in integrating a wide range of topics relative to reading while, at the same time, being highly readable and user-friendly for instructors, students, and practitioners.

English as a Foreign Language for Deaf and Hard-of-Hearing Persons Ewa Domagała-Zyśk 2016-09-23 Deaf and hard-of-hearing students form a specific group of foreign language learners. They need to use foreign languages just like their hearing peers if they want to enjoy the same benefits of globalization and technical advancements of today, yet they cannot take part in the same foreign language education. As sign language users, lip-readers or persons relying on hearing aids or cochlear implants in their everyday communication, they need special support in learning a foreign language. This book has been written by teachers and researchers involved in teaching English as a foreign language (EFL) to deaf and hard-of-hearing students in various different European countries, including the Czech Republic, France, Hungary, Norway, Poland, and Serbia. The chapters mirror both the authors' personal journeys through this field and give insight into various aspects of empirical research into the foreign language acquisition of hearing-impaired learners. They discuss mainly the issue of specific methodology for teaching EFL

vocabulary, grammar, reading, writing and speaking to deaf and hard-of-hearing persons and the challenge of effective communication during the classes via sign language, cued speech or the oral approach. Special chapters are also devoted to EFL teachers' experience in special schools for the deaf. Educators interested in practical advice, responses to challenges and worked-out solutions to problems will particularly welcome this book as a useful source of ideas. It will also help novice teachers embarking on their careers in English language education for deaf and hard-of-hearing children and adults.

About the Tomatis Method Tim Gilmor 1989
M-libraries Mohamed Ally 2008 "Mobile Phone Ownership is considerably more ubiquitous than internet access via personal computers: more and more people around the world are carrying a tiny mobile device of some kind in their pocket or handbag. The environment in which people find and use information is changing - we are busier, we are constantly on the move and whether we are shopping, booking a holiday or looking for train times we expect instant results. What does all this mean for libraries?" "The development of networked technologies opened up huge opportunities for libraries to make their resources and services accessible to their users regardless of distance. The opportunity to deliver these to users via their mobile phones, PDAs and other handheld devices will be as significant a challenge. Indeed, if libraries choose to ignore this challenge, they are in danger of being left behind in an increasingly competitive world of information provision and services. This authoritative collection of contributions from experts in the field, based on the First International M-Libraries Conference, explores the technical and social context for m-libraries, describes a range of global initiatives with lessons learned, and discusses the potential for future development."--BOOK JACKET.

The Dative William van Belle 1998-01-01 This book is the second part of a two-volume reader on the 'Dative'. In the first part, which appeared in 1996, eleven papers were presented providing a syntactic and semantic description of the category 'Dative' in eleven languages. The aim of this second part is to discuss several aspects of the Dative in greater detail. It contains eight papers dealing with theoretical considerations on 'dativity' as well as with contrastive, typological and diachronic issues. A major concern is the relation between form (case, grammatical relation) and meaning (semantic roles or other kinds of meaning). Most contributions in this volume represent cognitive and functional views or a critical discussion of them. As in the first volume, the linguistic material mainly stems from Germanic and Romance languages. Contemporary English is the basis for Davidse's theoretical claims;

Pasicki studies the dative in Old English. Dutch appears especially in Geeraerts' semantic analysis, but also in the papers by Draye, Lamiroy & Delbecque and Van Langendonck. Draye, Lamiroy & Delbecque and Melis also take German into consideration. Latin is dealt with by Melis and Van Langendonck. Modern Romance languages, especially French, provide further data for Melis and Lamiroy & Delbecque. Finally, Newman adduces a variety of languages for his typological analyses.

Introduction to the Catechism of the Catholic Church Cardinal Joseph Ratzinger 2014-06-19 This is a valuable introduction to the Catechism by the general editor of the Catechism (Schonborn) and the head of the Bishops Commission for the implementation of the Catechism (Ratzinger). Providing helpful insights on how to read and study the Catechism, this book includes a prehistory of the Catechism, an overview of its structure and contents, the major themes and methods in it, a special introduction to the four parts of the Catechism, and specific advice on how to use the Catechism. Ratzinger and Schonborn illuminate the Catechism's teaching on faith, morals, prayer and sacraments, and how a Catholic lives those teachings in today's world.

Fear of Music David Stubbs 2009 This book examines the parallel histories of modern art and modern music and examines why one is embraced and understood and the other ignored, derided or regarded with bewilderment, as noisy, random nonsense perpetrated by, and listened to by the inexplicably crazed. It draws on interviews and often highly amusing anecdotal evidence in order to find answers to the question: Why do people get Rothko and not Stockhausen?

Tracking Adult Literacy and Numeracy Skills Stephen Reder 2008-09-16 Understanding the origins of poor literacy and numeracy skills in adulthood and how to improve them is of

major importance when society places a high premium on proficiency in these basic skills. This edited collection brings together the results of recent longitudinal studies that greatly extend our knowledge of what works in raising skill levels, as well as the social and economic returns to improvement. Many fundamental research questions in adult education involve change over time: how adults learn, how program participation influences their acquisition of skills and knowledge, and how their educational development interacts with their social and economic performance. Although a growing number of longitudinal studies in adult basic education have recently been completed, this book is the first systematic compilation of findings and methods. Triangulating findings from different methodological perspectives and research designs, and across countries, this text produces convergence on key conclusions about the role of basic skills in the modern life course and the most effective ways of enhancing them.

Adult English Language Learners Martha Bigelow Robin Lovrien Schwarz 2012-12-15 Adult English language learners who lack print literacy or experience with formal education encounter a unique set of challenges in their lives and their efforts to learn English. Educators and policymakers are similarly challenged by how best to help these adults acquire English literacy. This booklet reviews a variety of research, including that on language acquisition, literacy development in adults and children, cognition and brain functioning, adult education, and professional development. Though research on this specific group of adult learners is sparse, available findings suggest that they need programs and classes separate from those for other beginning-level English language learners, with particular attention paid to cultural influences and their experiences (or lack thereof) with formal education. Those who teach these adults can benefit from professional development opportunities that focus closely on the specific backgrounds, strengths and needs of these learners.

In *The Other Venice*, Predrag Matvejevic ventures past the infamous canals and cobblestone streets of the tourist's Venice to find the heart of the ancient Italian metropolis. A lyric re-imagining of the City of Romance, *The Other Venice* utterly reconfigures the Venetian landscape, as Matvejevic follows both real and imaginary maps, contemporary and historical, to trace out the details of this sensuous city. He probes into what the ancient metropolis means to its people, the nation, and global culture. But he also finds hints of life in the smallest and most mundane details—ancient bridges, rust-flecked boats, wall sculptures, rivers, and piazzas scattered throughout the city. Each has a little-known story and with Matvejevic as our guide, he reveals the stories behind them all. The book carries readers to a Venice that has escaped the eyes of writers, artists, and photographers through the centuries, and Matejevic by turns plays a historian, cartographer, anthropologist, and philologist as he unravels elusive artifacts of time past. Arresting black-and-white photographs by renowned photographer Sarah Quill accompany the text, offering a silent testament to Matvejevic's pilgrimage. A fascinating and beautifully written guide, *The Other Venice* reminds us that there is always another mystery to uncover in the city of water and stone.
