*Captive Prince* C. S. Pacat 2014-01-28 From global phenomenon C. S. Pacat comes the first novel in her critically acclaimed Captive Prince trilogy. Damen is a warrior hero to his people, and the rightful heir to the throne of Akielos, but when his half brother seizes power, Damen is captured, stripped of his identity, and sent to serve the prince of an enemy nation as a pleasure slave. Beautiful, manipulative and deadly, his new master Prince Laurent epitomizes the worst of the court at Vere. But in the lethal political web of the Veretian court, nothing is as it seems, and when Damen finds himself caught up in a play for the throne, he must work together with Laurent to survive and save his country. For Damen, there is just one rule: never, ever reveal his true identity. Because the one man Damen needs is the one man who has more reason to hate him than anyone else...

*Billy Summers* Stephen King 2022-08-02 Master storyteller Stephen King, whose "restless imagination is a power that cannot be contained" (The New York Times Book Review), presents an unforgettable and relentless #1 New York Times bestseller about a good guy in a bad job. Billy Summers is a man in a room with a gun. He's a killer for hire and the best in the business. But he'll do the job only if the target is a truly bad guy. And now Billy wants out. But first there is one last hit. Billy is among the best snipers in the world, a decorated Iraq war vet, a Houdini when it comes to vanishing after the job is done. So what could possibly go wrong? How about everything. This spectacular can't-put-it-down novel is part war story, part love letter to small town America and the people who live there, and it features one of the most compelling and surprising duos in King fiction, who set out to avenge the crimes of an extraordinarily evil man. It's about love, luck, fate, and a complex hero with one last shot at redemption. You won't forget this "noirish, unputdownable thriller" (People), and you won't forget Billy.

**The Terror** Dan Simmons 2008 Suspense fiction. The men on board Her Britannic Majesty's Ships Terror and Erebus had every expectation of triumph. They were part of Sir John Franklin's 1845 expedition - as scientifically advanced an enterprise as had ever set forth - and theirs were the first steam-driven vessels to go in search of the fabled North-West Passage. But the ships have now been trapped in the Arctic ice for nearly two years. Coal and provisions are running low. Yet the real threat isn't the constantly

shifting landscape of white or the flesh-numbing temperatures, dwindling supplies or the vessels being slowly crushed by the unyielding grip of the frozen ocean. No, the real threat is far more terrifying. There is something out there that haunts the frigid darkness, which stalks the ships, snatching one man at a time - mutilating, devouring. A nameless thing, at once nowhere and everywhere, this terror has become the expedition- 's nemesis. When Franklin meets a terrible death, it falls to Captain Francis Crozier of HMS Terror to take command and lead the remaining crew on a last, desperate attempt to flee south across the ice. With them travels an Eskimo woman who cannot speak. She may be the key to survival - or the harbinger of their deaths. And as scurvy, starvation and madness take their toll, as the Terror on the ice become evermore bold, Crozier and his men begin to fear there is no escape.

**Gravity's Rainbow** Thomas Pynchon 2013 Tyrone Slothrop, a GI in London in 1944, has a big problem. Whenever he gets an erection, a Blitz bomb hits. Slothrop gets excited, and then, "a screaming comes across the sky," heralding an angel of death, a V 2 rocket. Soon Tyrone is on the run from legions of bizarre enemies through the phantasmagoric horrors of Germany.

**The Gray House** Mariam Petrosyan 2017-04-25 The Gray House is an astounding tale of how what others understand as liabilities can be leveraged into strengths. Bound to wheelchairs and dependent on prosthetic limbs, the physically disabled students living in the House are overlooked by the Outsides. Not that it matters to anyone living in the House, a hulking old structure that its residents know is alive. From the corridors and crawl spaces to the classrooms and dorms, the House is full of tribes, tinctures, scared teachers, and laws—all seen and understood through a prismatic array of teenagers' eyes. But student deaths and mounting pressure from the Outsides put the time-defying order of the House in danger. As the tribe leaders struggle to maintain power, they defer to the awesome power of the House, attempting to make it through days and nights that pass in ways that clocks and watches cannot record.

Elysium Nora Sakavic 2019-04-23 Evelyn Notte's had sixteen years to make Elysium her home, but not by choice: she only survived her husband's betrayal by fusing with the ley line beneath the asylum's foundation. Now rumor has it Adam is back to his old tricks, and if Adam's alive maybe there's still a chance for the newborn daughter he stole from Evelyn so many years ago. The only way out of Elysium is the Nightmare buried at its core. Waking him means reigniting a long-stalled war and giving up what little is left of her humanity, but Evelyn's not going to lose her daughter again - and she's sure as hell not going to let Adam walk away a second time.

**Deep Sea Drilling Project** National Science Foundation (U.S.) 1974

*Earth Resources Survey Systems* 1972

Marine Mineral Exploration H. Kunzendorf 1986-05-01 The past 20 years have seen extensive marine exploration work by the major industrialized countries. Studies have, in part, been concentrated on Pacific manganese nodule occurrences and on massive sulfides on mid-oceanic ridges. An international jurisdictional framework of the sea-bed mineral resources was negotiated by the United Nations Conference on the Law of the Sea (UNCLOS III). A most important outcome of this conference was the establishment of an Exclusive Economic Zone (EEZ) of at least 200 nautical miles for all coastal states and the recognition of a deep-sea regime. Mineral deposits in EEZ areas are fairly unknown; many areas need detailed mapping and mineral exploration, and the majority of coastal or island states with large EEZ areas have little experience in exploration for marine hard minerals. This book describes the systematic steps in marine mineral exploration. Such exploration requires knowledge of mineral deposits and models of their formation, of geophysical and geochemical exploration methods, and of data evaluation and interpretation methods. These topics are described in detail by an international group of authors. A short description is also given of marine research vessels, evaluation of marine exploration examples; and an overview is provided of the jurisdictional situation after UNCLOS III.
