**Italian Vices** Silvana Patriarca 2013-07-18 Why

do Italians believe that they have a national character and that this character is a major reason for their political woes? Why is their self-image so frequently derogatory? In this meticulous study of the role of national character in Italian political and social discourse, Silvana Patriarca reconstructs the genealogy of a pervasive idea in the culture of

modern Italy. Using sources ranging from political pamphlets to newspapers and films, this book shows how self-representations of national character and its vices were shaped by foreign perceptions and stereotypes, internal political struggles, and changing intellectual paradigms. Investigating the politics of these representations, their ideological content, and their uses, the author recasts the study of Italian patriotism and nationalism as discourses and sheds light on Italian political culture and on the rhetoric of nationalism more generally.

As an exploration in historical semantics, Wierzbicka's new book deserves a place beside Raymond Williams's

Emotion in Language Ulrike M. Lüdtke 2015-12-16 The miracle of children's language development and the joy of expressive language on the one hand and the vulnerability of language and the sorrow and grief caused by its distortion or even loss in people with aphasia or dementia on the other hand show us the inseparability of emotion and language in its extremes. Although the 'emotional turn' promised a paradigmatic shift from a rationalistic towards an emotion-integrating conceptualization of language, hardly any interdisciplinary research has focused on the interplay between emotion and language. The

present book covers the wide range of work on Emotion in Language with contributions from numerous disciplines in the three areas of Theory, Research, and Application. With contributions both from well-known pioneers in the area of this topic as well as from young scientists, the book offers a broad range of perspectives from linguistics and language development to neurology, psychology and developmental neuropsychology and to the fields of philosophy and phenomenology.

The Punished Peoples Aleksandr Moiseevich Nekrich 1981-11 In late 1943 and early 1944, after the Nazi invasion of Russia had been turned back, Soviet troops descended upon the Caucasus, the Caspian steppes, and the Crimea without warning and brutally deported some one million of their people--Chechens, Ingush, Balkars, Karachai, Kalmyks, and Tatars--to Central Asia, Kazakhstan, and Siberia. Hundreds were executed and thousands more were to die of malnutrition, exposure, and harsh treatment. Not until the late 1950s were some of them allowed to return to their homelands, but then, and even now, under a burden of lies and guilt for the treasonous acts of a few.
