in modern Italian poetry. At the start of a promising career, Antonia Pozzi (1912-1938) committed suicide, leaving behind several hundred poems known only to her closest friends. The posthumous publication of this work led Eugenio Montale to praise Pozzi's "desire to reduce the weight of words to the minimum." Her Modernist verse is lyrical and experimental, pastoral and erotic, powerfully evoking the northern Italian landscape and her personal tragedies amid the repressive climate of Fascism. *Breath* contains a representative selection of Pozzi's poems in an Italian/ English bilingual format along with a number of her letters. In an introductory essay, editor-translator Lawrence Venuti documents her tormented life, considers her sophisticated thinking about her writing, and sketches the rich literary traditions that she inherited, creating a detailed context in which her poems can be

more fully appreciated. The translations affiliate Pozzi's poetry with the work of comparable English-language writers such as H.D., Mina Loy, and Lorine Niedecker, establishing in translation what Pozzi lacked in Italian: a tradition of Modernist women's poetries. Key Data on Teaching Languages at School in Europe 2012

Czech Lands, Part 1 Lucie Storchová 2020-09-07 "Companion to Central and East European Humanism: Czech Lands"

is the first reference work on humanists and their literary activities in this region which appears in English. In two volumes, it offers biographical and bibliographical data about humanist literary life between ca. 1480 and 1630. Apart from introductory chapters, the first volume includes more than 150 biographical entries dealing with authors whose names begin with letters A-L as well as

complete overviews of the most recent research on humanism in Central Europe. The interdisciplinary research team paid special attention to local approaches to classical tradition, to forms of humanistic polylingualism and to participation of Bohemian authors in European scholarly networks. Both volumes are of high relevance for all academics who are interested in humanism and history of early modern literature in Central Europe.

As it includes no exercises, however, it is not a substitute for the Ørberg ancillary *Exercitia Latina I*. Though designed especially for those approaching *Familia Romana* at an accelerated pace, this volume will be useful to anyone seeking an explicit layout of *Familia Romana*'s inductively-presented grammar. In addition to many revisions of the text, the Second Edition also includes new units on cultural context, tied to the narrative content of the chapter.

*Rethinking Subalternity in Central and Eastern Europe* Francesco Trupia  
2020-08-03 At a time when the region of Central and Eastern Europe is considered a dominant example of democratic backsliding with

authoritarian tendencies, this monograph aims to provide a critical approach to minority issues. By carving out the philosophical implications of the notion of subalternity, Trupia draws particularly on Antonio Gramsci's philosophy of praxis and his scholarly legacy in order to debunk societal models of liberal multiculturalism and their hegemonic discourse. This monograph is not only an attempt to unravel power-centred fabrication of subordination resulting from hierarchic methods of doing politics and imposing cultural ascriptions upon certain segments of society. It also deals with subalternity as a "perspective of opportunity" through the lens of complex identity positions of minority groups and their changes through time. Language Policy and Linguistic Justice Michele Gazzola 2018-09-03  
Language policies are increasingly acknowledged as being a necessary component of many decisions taken in the areas of the labor market, education, minority languages, mobility, and social inclusion of migrants. They can affect the democratic control of political organizations, and they can either entrench or reduce inequalities. These are the central topics of this book. Economists, philosophers, political scientists, and sociolinguists discuss - from an interdisciplinary perspective - the distributive socio-economic effects of language policies, their impact on justice and inequality at the national or international level, as well as the connection between language choices and an inclusive access to public services. The range of social and economic issues raised by linguistic diversity in

contemporary societies is large, and this requires new approaches to tackle them. This book provides new input to design better, more efficient, and fair language policies in order to manage linguistic diversity in different areas. Topics covered include: theoretical models of linguistic justice and linguistic disadvantage; the assessment of the socio-economic consequences of language policies; the evaluation of the costs, benefits, and degree of inclusion of language planning measures; the politics of migrants' linguistic integration; as well as multilingualism and economic activities. These topics are discussed in different contexts, including the areas inhabited by linguistic minorities, cities receiving migrants, and supranational organizations.

Human Rights in Chinese Foreign Relations Ming Wan 2013-10-09

and the West invoke as much passion as human rights. At stake, however, are much more than moral concerns and hurt national feelings. To Washington, the undemocratic nature of the Chinese government makes it ultimately suspect on all issues. To Beijing, the human rights pressure exerted by the West on China seems designed to compromise its legitimacy. As China's economic power grows and its influence on the politics of developing countries continues, an understanding of the place of human rights in China's foreign relations is crucial to the implementation of an effective international human rights agenda. In *Human Rights in Chinese Foreign Relations*, Ming Wan examines China's relations with the United States, Western Europe, Japan, and the United Nations human rights institutions. Wan shows that, after a decade of persistent external pressure to reform its practices, China still

plays human rights diplomacy as traditional power politics and deflects pressure by mobilizing its propaganda machine to neutralize Western criticism, by making compromises that do not threaten core interests, and by offering commercial incentives to important nations to help prevent a unified Western front. Furthermore, at the UN, China has largely succeeded in rallying developing nation members to defeat Western efforts at censure. In turn, it is apparent to Wan that, while the idea of human rights matters in Western policy, it has seldom prevailed over economic considerations or concerns about national security. Western governments have not committed as many policy resources to pressuring Beijing on human rights as to other issues, and the differing degrees of commitment to human rights-related foreign policy explain why Japan, Western Europe, and the United

States, in that order, have gradually retreated from confronting China on human rights issues.

**Latin Via Ovid** Norma Goldman 1982  
Using an introduction to mythology by the master storyteller Ovid himself, the authors have prepared a unique

teaching tool designed to achieve proficiency at Latin in one year at the college level, two years at the high school or intermediate level. The volume provides students with imaginative, connected reading, beginning with introductory prose versions of Ovid's simple myth tales and progressing to the rich poetry of Ovidian Latin (with appropriate teaching aids) within forty lessons. The grammatical approach is traditional, but the central emphasis is on reading. In each chapter the reading appears first, followed by the vocabulary, the grammar, exercises, and etymology relating to the vocabulary. The exercises begin with a group of questions in Latin (based on the reading), to be answered in Latin. Each tale is preceded by a brief discussion in English of the story and its mythological significance. The myths retold by Ovid and the attractive format are conceived to impel the

student into acquiring the skill to read the author in the original language. For additional complimentary materials on this topic, please see Latin Via Ovid Audio materials (available via downloadable flash drive and cassette tapes) by Norma Goldman and Jacob E. Nyenhuis and the accompanying text *Practice, Practice: A Latin Via Ovid Workbook* by Norma Goldman and Michael Rossi.

Critics charged him with biblical literalism and "creationism." In this book, Cardinal Schonborn responds to his critics by tackling the hard questions with a carefully reasoned "theology of creation." Can we still speak intelligently of the world as "creation" and affirm the existence of the Creator, or is God a "delusion"? How should an informed believer read Genesis? If God exists, why is there so much injustice and suffering? Are human beings a part of nature or elevated above it? What is man's destiny? Is everything a matter of chance or can we discern purpose in human existence? In his treatment of evolution, Cardinal Schonborn

distinguishes the biological theory from "evolutionism," the ideology that tries to reduce all of reality to mindless, meaningless processes. He argues that science and a rationally grounded faith are not at odds and that what many people represent as "science" is really a set of philosophical positions that will not withstand critical scrutiny. Chance or Purpose? directly raises the philosophical and theological issues many scientists today overlook or ignore. The result is a vigorous, frank dialogue that acknowledges the respective insights of the philosopher, the theologian and the scientist, but which calls on them to listen and to learn from each another.

Historical Dictionary of Russian and Soviet Cinema Peter Rollberg

2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein,

Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky, and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit, but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational (Eurasian) character: while Russian cinema was the largest, other national cinemas such as Georgian, Kazakh, and Ukrainian played a decisive role for Soviet cinema as a whole. The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information, together with detailed critical assessments of individual artistic accomplishments. This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology, an introduction, and a bibliography. The dictionary section
