The Numinous Legacy Adair Butchins 2002 Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the **Words to Rhyme with** Willard R. Espy 2001 Lists more than 80,000 rhyming words, including single, double, and triple rhymes, and offers information on rhyme schemes, meter, and poetic forms.

Yann Tiersen - Kerber Yann Tiersen 2021-07-01 (Piano Solo Songbook). "I think there is a similarity between the infinite big and the infinite smallness of everything," says Yann Tiersen. "It's the same experiment looking through a microscope as it is a telescope." Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.

Sounds of Articulating Identity Birgit Abels 2008 Sounds of Articulating Identity - Tradition and Transition in the Music of Palau, Micronesia, provides an overview of historical and contemporary music-making practices and their social contexts in the Republic of Palau. The study identifies and analyzes strands of musical development over the course of, roughly, the last century. Its secondary focus is on the conceptualization of the musical transition in Palauan discourse(s) and its interaction with local identity negotiation. As the ethnomusicological exploration of the Palauan world proceeds, the book demonstrates how a study of the music of a small island nation is capable of transcending the boundaries of ethnomusicology as an academic discipline, and it adds rich material to the discourse about globalization and to the field of cultural studies.

Paul Kossoff: All Right Now J. P. James 2017-11-02 Affectionately known as 'Koss', Paul Kossoff's playing touched people. It still does today, more than forty years after his sad and untimely death at the age of twenty-five. This authorised biography pays fitting tribute to a much-loved and widely admired musician whose influence and inspiration is still very evident.

It's all here: Kossoff's musical childhood, his formative years with Black Cat Bones, forming Free at seventeen, that group's dizzying success, breakup, reforming and dissolution, the solo years, Back Street Crawler - the sessions, the tours and big concerts, the triumphs, the tragedies and the heartbreak - J.P. James takes the reader right there. Over four distinct sections, Kossoff's many guitars and the equipment he used to make them sing are fully documented; a brand-new detailed analysis of Kossoff's distinctive playing style and technique is presented for the first time; a broad overview of Kossoff's creative life draws on the voices of family, friends and fellow musicians; and finally, Kossoff's musical influences, approach to playing and his wider musical interests, hopes and dreams are explored - all drawn from his own words. Cramming so much into his short years, Paul Kossoff left a rich musical legacy, and he is indeed All Right Now. Thoroughly researched and sensitively written, given often in Kossoff's own words and packed with anecdotes from those who were there, musicians and fans alike will enjoy this authoritative and comprehensive biography. *The Reykjavik Meeting* 1986

Illusion and Reality Christopher Caudwell 2008-11 ILLUSION AND REALITY A STUDY OF THE SOURCES OF POETRY. AUTHOR: CHRISTOPHER CAUDWELL. CONTENTS: BIOGRAPHICAL NOTE INTRODUCTION. THE BIRTH OF POETRY. THE DEATH OF MYTHOLOGY. THE INVOLVMENT OF MODERN POETRY. ENGLISH POETS: I PRIMITIVE ACCUMULATION. II THE INDUSTRIAL REVOLUTION. III DECLINE OF CAPITALISM. THE WORLD THE PHANTASY POETRYS DREAMWORK THE ARTS THE FUTURE OF POETRY..... BIBLIOGRAPHY INDEX BIOGRAPHICAL NOTE. THIS is one of the great books of our time. It is not easy reading. It is a book to be studied and annotated and returned to again and again. The reader will then find that, however often he takes it up, it will always give him fresh food for thought. The author, Christopher St. John Sprigg, was born in Putney on October 20, 1907. He was educated at the Benedictine school at Ealing. He left school at sixteen and a half and worked for three years as a reporter on the Yorkshire Observer. Then he returned to London and joined a firm of aeronautical publishers, first as editor and later as a director. He invented an infinitely variable gear, the designs for which were published in the Automobile Engineer. They attracted a good deal of attention from experts. He published five textbooks on aero nautics, seven detective novels, and some poems and short stories. All this before he was twentyfive. In May, 1935, under the

name of Christopher Caudwell, he published his first serious novel, *This My Hand*. It shows that he had made a close study of psychology, but he had not yet succeeded in relating his knowledge to life. At the end of 1934 he had come across some of the Marxist classics, and the following summer he spent in Cornwall immersed in the works of Marx, Engels, and Lenin. Shortly after his return to London he finished the first draft of *Illusion and Reality*. Then, in December, he took lodgings in Poplar and later joined the Poplar Branch of the Communist Party. Many of his Poplar comrades were dockers, almost aggressively proletarian, and a little suspicious at first of the, quiet, well spoken young man who wrote books for a living out before long he was accepted as one of themselves, doing his share of whatever had to be done. A few months after joining the Party he went over to Paris to get a firsthand experience of the Popular Front and he came back with renewed energy and enthusiasm. Besides continuing to write novels for a living, he rewrote *Illusion and Reality*, completed the essays published subsequently as *Studies in a Dying Culture*, and began *The Crisis in Physics*. He worked to the clock. After spending the day at his typewriter, he would leave the house at five and go out to the Branch to speak at an openair meeting, or sell the *Daily Worker* at the corner of Crisp Street Market. . Meanwhile, the Spanish Civil War had broken out. The Poplar Branch threw itself into the campaign, with Caudwell as one of the leading spirits. By November they had raised enough money to buy an ambulance, and Caudwell was chosen to drive it across France

Lashipa Louwrens Hacquebord 2012-06-30 This book contains most of the papers presented at the final LASHIPA workshop in St Petersburg, Russia 2-4 November 2009. The workshop was organized to finalize the bilateral LASHIPA Russia-Netherlands project and to discuss possible future cooperation between the participants of the sub-project of the Eurocore Boreas project and the participants of the International Polar Year project Large Scale Historical Exploitation of Polar Areas (LASHIPA). LASHIPA and CEE/Boreas are linked together by different fields of expertise. The common grounds of the two projects are the relation between industrial resource development and science in an international perspective. Knowledge production and knowledge transfer from science to industry as well as between different national communities of resource users are very important in the Arctic as is transfer of legitimacy. All these fields might give opportunities for future research. The different contributions in this book try to answer some of these questions.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." —an excerpt

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

How the Brain Evolved Language Donald Loritz 2002-02-28

How can an infinite number of sentences be generated from one human mind? How did language evolve in apes? In this book Donald Loritz addresses these and other fundamental and vexing questions about language, cognition, and the human brain. He starts by tracing how evolution and natural adaptation selected certain features of the brain to perform communication functions, then shows how those features developed into designs for human language. The result -- what Loritz calls an adaptive grammar -- gives a unified explanation of language in the brain and contradicts directly (and controversially) the theory of innateness proposed by, among others, Chomsky and Pinker.

The Indonesian Language James N. Sneddon 2003 "This book, the first of its kind, is a historical, social, cultural and linguistic study of Indonesian. It traces the origins and pre-colonial development of the language, the emergence of Classical Malay from the fourteenth century, the choice of Malay by the nationalist movement as the national language prior to independence, the planning associated with the adoption

and implementation of the language, its borrowings from other language, its use in contemporary Indonesia and its future. The book challenges many assumptions about Indonesian, particularly countering the myth that Indonesian is a simple language."--BOOK JACKET.
